EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, between the title and "Technical Field", the following paragraph was inserted:

-- This application is a 371 of PCT/JP05/05637, filed March 22, 2005. --.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on the PTO-892 each disclose a method and apparatus of transferring a pickup in the radial direction of an optical disk.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest a pickup transfer apparatus and method for **transferring an optical pickup held in a first engaging position in a radial direction of a recording medium by driving a second engaging portion to be engaged with the first engaging portion**, comprising: calculating a backlash value between the first and second engaging portions in a transfer direction of the first engaging portion; and **driving the second engaging portion on the basis of a calculated backlash value to transfer the first engaging portion**. (bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
